

BIM Manager / Coordinator

- **Industry:** Construction
- **Location:** Remote US clients
- **Time:** 40 h / week

We are looking for our US-American clients for experienced (preferable 5-8 years) BIM Managers and Coordinators. Start is as soon as possible. To lead the digital strategy of architectural projects, ensuring model quality, interdisciplinary coordination, and adherence to international BIM standards.

Key Responsibilities

- BIM Execution Plan (BEP): Develop and implement the BEP for each project.
- Standards & Quality Control: Ensure models follow US National BIM Standards (NBIMS) and AIA standards.
- Clash Detection: Perform automated clash detection using Navisworks Manage and coordinate resolutions.
- Cloud Management: Oversee collaboration on Autodesk Construction Cloud (BIM 360).
- Content Creation: Manage and audit the firm's Revit Family Library and templates.
- Training: Mentoring Revit Drafters and Designers in advanced BIM workflows.

Technical Skills & Requirements

- Expert proficiency in Autodesk Revit, Navisworks Manage, and Dynamo.
- Advanced English (C1) - Ability to lead technical meetings with US clients.
- Understanding of US Building Codes and Imperial Measurement System.
- Experience in LOD (Level of Development) 300 to 400 management.

What you can expect

- A decent salary, depending on your experience
- 100% Remote work
